This will now be recorded.

- Norma

00:09 - 00:11

Joanne, have you got everybody checked in.

- Joanne

00:12 - 00:21

I have Trustee Hyde, Trustee Grybowski, Trustee, Trustee Badour and yourself, and I don't see Kellogg, as of yet.

- Norma

00:25 - 00:25

And Alicia's on?

- Joanne

00:27 - 00:28

Yeah, Alicia's here, too.

- Norma

00:28 - 00:36

Ok, good, OK, well, let's open up the meeting, and, Michelle, do you have anything to speak about for Kevin.

- Michelle

00:37 - 00:37

Everything is status quo.

- Norma

00:39 - 00:40

That's good to hear. Good to hear. Thank you. Anybody got any questions you want her to get back to Kevin about? If not, Terry Jones.

- Terry Jones

00:52 - 00:57

Everybody, um, beautiful day that we had final day of summer, I'm guessing. I wanted to ask, the board, I did send an e-mail out earlier this morning Dillon Bogart and John Farmer both have 40 hours remaining in the anniversary date. Actually, Dylan's is just gone by. And John's is that, well, I think today or tomorrow. I was asking, the board permission for them to carry their 40 hours over the next year.

- Norma

01:30 - 01:31

What's everybody want to say? It's. Tough to get. Everybody. But that's not how the Contract reads.

- Michelle

01:45 - 01:58

Honestly, with everything crazy that's been going on, I think these guys should be able to carry over their time, because there's certainly, certainly no way we can give them a bonus, and they've been working hard.

- Nancy

02:01 - 02:01

How. Much time is. John got Terry.

- Terry Jones

02:04 - 02:07

He's got 40 to carryover, as well as Dillon.

- Norma

02:12 - 02:16

But somehow they go to start to schedule their vacations.

- Terry Jones

02:16 - 02:17

Right?

- Norma

02:17 - 02:22

Especially when we're down, it's hard for you to know when they're not going to be around.

- Terry Jones

02:23 - 02:28

With them being off till June. And then Dylan and John and both here, basically covering all the bases while those other guys were off. So, it was hard for them to actually take time during that period.

- Norma

02:39 - 02:40

Did. Everybody get their CPR done? Did everybody get their CPR taken Care of?

- Terry Jones

02:46 - 02:48

Yes, we hope we've all done it. We're just waiting for the hands-on part. I've sent certificates, except for Sam's, which he just sent that over to me tonight. As soon as we get scheduled, we'll go over to John and will be, sort of like.

- Norma

03:03 - 03:04

Oh, that's great, Terry. Thanks forgetting that done. Does somebody want to make a motion? I guess, we should do on separately for 40 our carryover for Dylan.

- Steve Badour

03:05 - 03:12

These guys actually worked on everybody else's off, right?

- Terry Jones

03:18 - 03:19

That's correct.

- Steve Badour

03:20 - 03:25

I definitely, which suggests that they get their vacation time That we not take it away from them. I think that's really pertinent, especially the morale of the guys. I make a motion that they get their time or carry over. I think it's pretty important to the morale of the workers.

- Norma

03:43 - 03:46

So, would somebody second the motion for Dillon to carry over 40.

- Michelle

03:47 - 03:47

I would.

- Norma

03:49 - 03:50

Ok, we got a second all in favor.

- Nancy

03:51 - 03:53

I will.

- Norma

03:54 - 03:55

Anybody opposed? Ok, the motion is carried, so somebody make a motion now for John Farmer?

- Steve Badour

04:05 - 04:05

I'll make a motion.

- Norma

04:08 - 04:10

Ok, a second for John Farmer carryover.

- Norma

04:14 - 04:20

Michelle, OK, Michelle, thank you all, all in favor of the carryover for John farmer. Ok, anyone opposed? Ok.

- Terry Jones

04:28 - 04:29

Thank you very much.

- Norma

04:30 - 04:32

Ok, what else we got Terry?

- Terry Jones

04:32 - 04:44

I think I reached out to you about the library's fuel, take buried Propane tank is leaking very minimally around the gauge and it's an older tank. So they're not comfortable with trying to change that gage out So I spoke with Brian Wattam from Christman who's going to be supplying our fuel. And we spoke with Brooke and also Nancy and Norma about putting a 500 gallon propane take on top of the ground and we'll build a little fence around it for aesthetics. And it's going to be considerably less than trying to excavate that old tank out and install a new tank buried. Basically, once we get it hooked in the year, we change the tank out.

- Norma

05:35 - 05:37

Did you get another quote on it? That's what I was kinda waiting for.

- Terry Jones

05:39 - 05:45

I spoke with Mike Docteur about giving me another clue of doing it the other way. I just spoke, But in talking with Brian ..., it's, you know, they will hook it up, well, we gotta do, is dig the trench over to the unit. And he can set the tank. Christman will come in and start the tank and run the line. That's what he does. And it's definitely, I'm not sure of a price, he didn't give me appreciate, Norma. I just met with them, but I, I don't know if it's part of our contract Or not. But I will find that out tomorrow. But I just, I think, I've got the solution.

Village of Clayton Board Meeting Transcript

And then next year, once that buried tank is completely empty, the DPW, we can remove that tank.

- Norma

06:23 - 06:23

Ok. So, we want to tell Terry just this ball forward on this and we'll get, You didn't tell me. They've got heat down there, so we know it's not.

- Terry Jones

06:34 - 06:36

Yes, it's not empty. They still have 30, and like you said, it's a very minimal. There's 30 left in the tank, so it'll get them until the time that Brian can change this over. I believe we started October first but he says he has hookups through November right now. So I'll get with him tomorrow if I get the approval and we'll get the ball rolling and see if we can go.

- Norma

06:58 - 06:59

Well the tanks belong to us, or Does it belong to the fuel oil company?

- Terry Jones

07:03 - 07:04

Christman. It'll be theirs.

- Norma

07:06 - 07:07

All right. Does, just somebody. Want to. Give Terry, the OK. A motion?

- Michelle

07:14 - 07:20

I would make the motion to change things out in the way Terry described.

- Norma

07:21 - 07:22

Do I have a second?

- Steve Badour

I'll second it.

- Norma

07:25 - 07:26

Thank you, Steve. All in favor? Ok, I'm OK with that, I don't know that. We've got to build a fence around it for them.

- Terry Jones

07:35 - 07:36

Ok.

- Norma

07:36 - 07:45

But they've raised a ton of money for you know that, oh, beautiful sculpture, they got out front. And I don't know what How elaborate or what they want.

- Michelle

07:54 - 07:55

Well what about safety?

- Norma

07:56 - 07:57

Oh, lots of people have a tank out.

- Terry Jones

08:00 - 08:01

It will have a lock on it.

- Michelle

08:01 - 08:02

Ok?

It's not mandatory to have a fence around it.

- Norma

08:07 - 08:10

Let's get the tanks get that moving forward, and worry about it.

- Terry Jones

08:12 - 08:12

Right? And then, down the line, if we decide we want to bury one and they become, you know, we want to decide to bury it. We can pull the old one out and bury a tank next year when we're when we're actually have it budgeted. That's the problem we really don't have that money to play with right now.

- Norma

08:31 - 08:31

Ok, so. We're all set. To go ahead. Ok, all right, what else you got Terry?

- Terry Jones

08:39 - 08:42

That's all I have, that's all I have right now. Do you have anything for me?

- Norma

08:44 - 08:46

Well, where are you with the truck you wanted.

- Terry Jones

08:48 - 08:49

Well, I can't order it until November? But I have spoken with them, and they're gonna get a quote out to me as quick as they can, but the 21's don't come out in November, so oh.

- Norma

08:57 - 09:00

Yeah, OK, that was wondering what was going to be 20th. So you're not gonna have any information until. The next meeting. Ok, I've got a question for you, Terry. A few weeks ago, you had to take one of the tires out of the playground over here.

- Terry Jones

09:15 - 09:15

Yes.

- Norma

09:16 - 09:25

Ok, I know we had a hard time finding those, whom we did the Playground, but if you got the specs on it, so maybe we can do a little homework to see if we can find and replace.

- Terry Jones

09:27 - 09:27

Ok.

- Norma

09:38 - 09:40

But, if you have the specs and I know they can't have wire in it...

- Terry Jones

09:42 - 09:42

Right.

- Norma

09:43 - 09:46

So if you got the specs to my I could see what I could find.

- Terry Jones

09:50 - 09:51

Those were the original tires. I have no idea, but now let's see what I can do.

- Norma

09:54 - 09:57

It might've been in the specs we had for the playground. I don't know, I don't remember.

- Norma

10:12 - 10:21

I had an e-mail today from John Peach at Save the River on something else, and we want to make sure that we thank you for your help at the pick up. So that we did get a truckload of stuff, so that was good.

- Terry Jones

10:30 - 10:31

Yeah, no, that does.

- Norma

10:32 - 10:34

Anyone else for Terry? If not, Megan. Are you with us Megan?

- Megan Ervay

10:42 - 10:43

Yep. I'm here. Beautiful. Ok, well, I guess I'll start out with what I have on the agenda of my updated water treatment facility system. Emergency Response Plan. I made a couple updates to it to include some new things that we incorporated into the water plant and distribution system with the upgrades that we've made regarding SCADA and the new generator that we have at the water treatment plant. So nothing too crazy, but it's just a couple of minor updates hoping to get the Board's blessing, the adopting the new emergency response plan for the village.

- Norma

11:31 - 11:36

Would somebody make that motion now before Megan moves on on the emergency plan update?

- Steve Badour

11:38 - 11:39

I'd make the motion.

- Norma

11:48 - 11:49

Nancy, OK. Any questions more for Megan or are we all in favor or what are we doing here?
All in favor.

- Nancy

11:57 - 11:58

Aye. All in favor.

- Norma

12:00 - 12:01

And nobody is opposed. Ok, so you've got that down Megan.

- Megan Ervay

12:05 - 12:07

Awesome, all right, I got a couple of quick updates.

- Megan Ervay

12:08 - 12:22

The operator to have been out doing mainline, touching and some preventative maintenance, on fire hydrants and May my involved the past week or so, just about a little bit over halfway done. And they're hoping that this week, so that'll be good to have taking for bad weather comes. And, this week, we're having the development authority, GIS specialists come in and do training on a manhole inspections on the iPad. Or borrow an iPad. So, we still make manhole inspections, a lot easier, marched in the lot easier to kind of compile the information at the end. So, we're excited for that, and we'll be starting those inspections probably next week after we wrap up flushing. And all of the guys did complete their CPR training.

- Norma

13:10 - 13:10

Thanks, Megan.

- Megan Ervay

13:12 - 13:15

And last little tidbit is tomorrow the guys will be cleaning our filter number two with the citric acid and then that sit in there for a couple of days. Symptoms, routes, the way cleaned of testers planning on being here, October 13th to switch out the gaskets and all rings with the new O Rings, that will hopefully carry the links for the long haul, so we will see how that goes. But as far as the water plan project, we finally got everything wrapped up with global. So that just leaves a couple of odds and ends things from a project engineers to get to us. And we're really approaching the end of the project and it wrapped up so that's kind of exciting.

- Norma

14:03 - 14:12

Great now, are you waiting on, Richard Ingerson to get you the flood plan information for the grant?

- Megan Ervay

14:13 - 14:15

Yeah, I have left messages and...

- Norma

14:15 - 14:18

You're looking for a letter I think, from Dick Ingerson.

- Megan Ervay

14:19 - 14:23

Yeah, I haven't gotten a response from like I've reached out to them 3 or 4 times following the...

OK. What else you got for us. That those were the highlights I had, aside from in the personnel section of the board report. I did start. Well, I did an analysis of the overtime up for the operators up from this year So far. I don't know if you guys saw that or not, but the.

- Norma

14:55 - 14:58

That was great to have a better understanding of it.

- Megan Ervay

14:59 - 14:59

Yeah. I mean, most of it, at least half or more of it is scheduled over, time for weekends and holidays. And the other is call-ins and you know call-ins are call-ins, if they gotta come in and you gotta come in. And that kind of, this shows what we're looking at on a monthly basis. And it fluctuates, depending on what's going on in the system. But it's really not bad when you think of what these guys have to cover, you know. We got 16 pump stations and two major treatment plants, you know, so to have a couple of call-ins monthly is not unusual, because they gotta be there, so. So I'm going to keep, keep track of that stuff, and keep that graph, just so you guys can kind of see how we're trending with all that, going forward.

- Norma

15:47 - 15:50

Does anyone have any questions for Megan? No, if not, Megan, guess we're all set. Thanks for everything.

- Megan Ervay

16:09 - 16:11

I haven't heard any recent updates firm. They've sent Joanne and I a couple e-mails asking to fill in information. And we've given them everything they've asked for, but I haven't heard any confirmations as far as are we gonna be ready to go. The, I would, certainly. If you're feeling, you know, we don't have a lot of time before reading. We got two weeks. I'm thinking we're going. By the time, it's showtime. So we might be looking to February.

- Norma

16:40 - 16:42

Ok, I don't want to get it started and not be able to read the meters?

- Megan Ervay

16:45 - 16:48

No, no, no and we aren't going to rush into it. We need to get all sorts of training done and there's a lot that needs to happen before we go Completely too many links. More next year.

- Norma

17:01 - 17:02

Next year, OK. Does anyone wanna ask Megan, anything else? If not, I think you're also Megan, thank you.

Aye.

- Norma

18:53 - 18:54

Any opposed? Motion is carried, OK. On the police officers, here, they've got...their raise was, given to them the same time that the full-time people. But we've gotta have a better understanding. We've got an HR department and all, and we need to have this go. Anything like this go to Alicia, because we get in trouble with civil service, and we finally got 40 years of civil service cleaned up, and I don't want to get back into that. And maybe we should just call payroll people too and tell them that it has to come from HR. Not from a department head, or anybody else. I don't know how anybody else feels.

- Michelle

19:45 - 19:50

Maybe just send a memo saying that you want to clarify the procedure and remind everyone.

- Norma

19:50 - 19:53

Right, and we should remember the department heads as well. I don't know.

- Michelle

19:54 - 19:55

Talking about. Send them a note.

- Norma

19:57 - 19:57

Yeah, OK. Alright, so, all they should do we have to do them separately, I can read through them all together.

So, we need an approval for the one. That's great. We've got five people, As we usually have figures are DPW guys when somebody doesn't show up. Yeah, so, we need to get that behind us, because that's a mandatory issue. So, you could get it done by the next board meeting. That would be great. I think that's it. I don't know about Jeremy, did you hear anything from him? Alicia?

- Alicia Dewey

22:28 - 22:29

No, I have not.

- Norma

22:29 - 22:30

Ok. I'll see what I can do. Ok, and, um, I've heard a few people ask about what the traffic pattern might be wants to project, is over. And Kevin's trying to put together some ideas and your D O T has offered to do a plan for citizen. Anything we've gotta do, but they've got all the know-how and everything to do it. So if you tell me, I can get a letter off to DOT to do a traffic pattern. There's John Street was really difficult this summer. Some people want it to be made one way. I mean, it's a long process. You have to have a public hearing, write a law. But. If DOT would do the work to get a plan together there, I think would be helpful. Does anybody have a problem with that?

- Michelle

23:26 - 23:28

I would love John Street to be one way.

- Norma

23:29 - 23:30

Don't you...I mean. Some people. On a one going towards the park? Some people want it gone the other.

- Michelle

23:37 - 23:47

I think Webb and James should be two ways, and then every other street that's running north, south, one should be towards the river. The next one should be away from the river and so on. So that there's less congestion and I also think the streets that run east west should do the same thing. Every one way in 1 or 2 directions.

- Norma

24:23 - 24:24

Alright. Joanne, who did a stellar job to get all the taxes in. We've got 95% of the taxes have been collected, then, right on top of there, was the water bills and the past due notices. And I think there's just, I mean, I don't know, Is there a \$10000 left, Joanne?

- Joanne

24:49 - 24:49

Yeah! There's only \$13,000 now.

- Norma

24:53 - 24:57

That's a great job by Joanne, until I get the ramped up. So, that's a good thing. And you might have some input on this, too, Michelle, from the Chamber! They want to do a scarecrow.

- Michelle

25:14 - 25:15

Yes.

- Norma

25:15 - 25:26

This was kind of on a casual conversation, but then Tricia wanted to know if she could put an ad in the paper that encouraged people to build a scarecrow.

- Michelle

25:27 - 25:31

The whole thing is they're trying to do something for morale.

- Norma

25:32 - 25:32

Right?

- Michelle

25:32 - 25:37

And her ideas were what, their ideas were wonderful, they weren't just Tricia's. What they wanted to do is essentially have things in one place. Then people do their drive bys, I'm not sure about judges, but they want people to be able to drive by and see everything, so that it still feels special. It still feels like a holiday, no trick or treating is still a little bit up in the air. So that was the impression I got, and I thought it was the way they described it, and you know, the logic of it was wonderful. And.

- Norma

26:09 - 26:18

Another thing way back before COVID, we approved all the Events for the Chamber and they had reserved Frink Park for a Punkin' Chunkin'. Would like to use that on the 17th and have the Farmer's Market down there just to have some activity downtown. Does anybody have a problem with that?

- Michelle

26:33 - 26:34

I don't.

- Norma

26:34 - 26:43

Ok, and they want to extend the Farmer's Market up here at the park until October 29 unless you.

- Michelle

26:44 - 26:44

That'd be wonderful.

- Norma

26:45 - 26:48

So it's been a huge success this ummer. They'd like to just keep coming and if they can.

- Michelle

26:55 - 27:06

I think the other thing is, they're talking very creatively about ways not to save Christmas, but to do things, so that people remain engaged in the community. So they've been vaguely talking about maybe doing a parade where the floats stay in one place and people drive by in their cars. That's obviously just you know, what if we could know, where they're definitely making decisions, but they're really trying hard to not money, but make meaning.

- Norma

27:32 - 27:36

Think we've just got to start doing a few things that are fun.

- Michelle

27:36 - 27:37

Yes.

- Norma

And say that we're still alive and well so then. This weekend I saw some friend of mine, and they were talking about the writing down at the Centennial Park and that was pretty cold, that that was pre-COVID only, but there's just a small group.

- Michelle

27:56 - 27:57

I think as long as they stay in... This is just my opinion, as long, as they stay in COVID guidelines of Law.

- Norma

28:04 - 28:04

Yeah, they were all.

- Michelle

28:05 - 28:06

Just masked.

- Norma

28:06 - 28:12

Right, now I think just the wedding party is going to be there then they're live in there to go to the reception. At the reception but I didn't want you to see people at Centennial Park, but it was a long time of ago. They talked about it. So, for all ... there, what else have we got?

- Michelle

28:25 - 28:26

I have one thing. I had a couple of people. One lives in Cape Vincent and the others live in Clayton, approached me about the sidewalks, they look gorgeous. A couple of people, there was an older woman who couldn't get up the steps into a store because now that they've redone the sidewalks, the steps are higher and they're not really handicapped accessible. And they had originally told us that they were going to make sure they were accessible? So, I don't know what we do about that.

- Norma

28:52 - 28:59

Oh, I don't think they said they but all be accessible was not enough real estate down there to make them that way. And they don't have to be ADA compliant.

- Michelle

29:03 - 29:05

So how do we get people into the stores then?

- Norma

29:06 - 29:11

Well, I think, I know the school was really happy with the way they got there's in. I don't know where else the staff is different than it was before. And some of them have gone away. But there are some. I think they constructed them. Instead of going from the road to the property line. They weren't on the prompt a line to the road and made them the best they could. But I don't think there's anything we can do to change.

- Michelle

29:39 - 29:40

That's too bad. Maybe we could find a way to get ramps for those awkward stores. I know a lot up in the past, channel side has always had a ramp sitting over there and it got used.

- Norma

29:53 - 29:57

I don't know whether that one got a new step or not, I don't know. But.

- Michelle

29:58 - 30:03

I mean, maybe to come up with a way of encouraging people to do their own ramps or something.

- Norma

30:04 - 30:08

I know that Mary down at the Scoop didn't like, the way they did, had a. Plan to do her step, and then they made it wider, so. That. You could walk beside someone to get them up there. And she was going to put a little ramp up there for somebody with a wheelchair. Done something creative, but I know there's not enough? There are some that will never have a ... The entrance.

- Michelle

30:32 - 30:32

Ok.

Ok, anything else? See, Michelle, you wandered out of here.

- Nancy

30:42 - 30:51

I do have, it's Nancy, I do have two things to ask about in reference to the sign law. Where are we with that, Norma?

- Norma

30:54 - 30:56

I haven't done anything with it.

- Nancy

30:56 - 30:57

Now, I understand that. So can we set the date for the public hearing, or do we have to wait. For it to come back. From Joe? Oh. I think we ought to have come back from Joel.

- Norma

31:04 - 31:07

But if we set the date out a lot of ways.

- Nancy

31:09 - 31:13

Well, I was thinking in October 26, and that gives us know, that.

- Norma

31:13 - 31:18

There isn't gonna say anything about it, probably just a formality and charge is \$200. Tell us it's fine, is that doing a regular board meeting, Nancy?

- Norma

31:25 - 31:26

Yes, it is.

Well, we need to know if he's going to get it back, because the information or the information needs to be sent out to the local businesses so that they all have time, and anyone else in the community to review it.

- Norma

31:40 - 31:40

Right?

- Nancy

31:42 - 31:44

All right, so if you could check with Joe on that because.

- Norma

31:44 - 31:45

And I sure I'll be glad to do that.

- Nancy

31:46 - 31:49

Because his reply to me was he was waiting on the planning board.

- Nancy

31:49 - 31:50

So if you.

- Norma

31:52 - 31:54

Do you want to set the date tonight? And then if I call Joe and he says, oh, no, no, no, We'll just.

- Nancy

31:58 - 32:01

Yes, I, yes, I think that's a good idea.

And then we can move forward, with getting it in the paper and everything. We accept them. Date, for the 26 ad. Six o'clock isn't, but.

- Nancy

32:14 - 32:16

Yeah, that would be perfect.

- Norma

32:17 - 32:17

Him tomorrow.

- Nancy

32:17 - 32:18

Ok, all right. So, then, the other question I have, and I'm not expecting a complete answer. And this is. The e-mails that we've been getting from Union Street about making changes to our. To the Marine district. How is that handled? Et cetera, et cetera? Because I my limited understanding would be it's very lengthy process.

- Norma

32:43 - 32:44

It is, I think. Think Richard would be your best bet to explain that. I'm good at it.

- Nancy

32:49 - 32:49

Yes. I and, OK. I can.

- Norma

32:51 - 32:52

Ok. And I think that job, now, you know, I don't know what's going to happen over there.

- Nancy

No, I understand. And I, my question isn't, isn't directed to one side or the other. I just see all this information coming in and what are we going to do about it? That's all, so, I'll check with Richard and then we can find out from there.

- Norma

33:15 - 33:22

I think he was satisfied with the legal side from Bob Sly, what he told them to do. So he apparently had got the information you needed and was working on now.

- Nancy

33:29 - 33:29

Alright. Well, I'll give him a buzz this weekend to get a better understanding. And to be.

- Norma

33:34 - 33:35

What has to be done, to change that brought down.

- Norma

33:36 - 33:36

Right. Because I, I. Felt. It's a very lengthy process, not just come to the village board. And let us make a decision.

- Norma

33:44 - 33:47

No, I think you've gotta go to ZBA and you've gotta go to Planning board. And they will. Oh, I don't know. If they ever even one in front of the planning board, again, they were talking about that.

- Nancy

33:57 - 34:00

No. I could be speaking out of turn. I don't believe they didn't.

- Norma

34:02 - 34:03

I don't think they did either.

- Nancy

34:09 - 34:10

Right, same here.

- Norma

34:14 - 34:14

Check with Richard and share with us.

- Nancy

34:19 - 34:19

Did you want to make any... This letter to the library? Was there any discussion about that? Or we're just.

- Norma

34:30 - 34:32

Did everybody get a chance to read it?

- Michelle

34:32 - 34:33

- Norma

34:47 - 34:55

I will just give it to Alicia, and send it to Debbie Hunter, and she can disperse it to her board and see what happens.

- Alicia Dewey

34:57 - 34:58

Do you want me to do that? Or should I package it up for Nancy, how do you want to do that?

- Norma

35:05 - 35:13

Well, maybe if Nancy wants to send it out, but I don't think they could digest it if we waited to take it to the next board meeting. If they had it, and they could discuss it at the next board meeting, but.

- Nancy

35:18 - 35:24

I think it should go to Debbie, then Debbie could send it out to her board. As necessary because the board meeting, No. It is the third Tuesday of October. So, yeah.

- Norma

35:32 - 35:33

Yeah.

- Nancy

35:33 - 35:34

Should. I send. It has an e-mail versus a hardcopy the last letter we sent to, the President at the library was lost and we ended up having to resend it later just send it electronically.

- Nancy

35:46 - 35:52

Yeah, I think that's a good idea and then they'll always be a hard copy. Available. Yeah., I do.

- Norma

35:56 - 36:03

That was, so I got a lot of information together for Alicia and she put it all together, made it look good. So that was very, what else do we have? Is there anyone out there on the public that's got any questions?

- Norma

36:11 - 36:18

Yes, I have one, mister Joe Christman, The Rotary park bathrooms are supposed to be open. I got a call this weekend that I got opened late. And when are they going to shut down?

- Norma

36:28 - 36:31

As long as the weather is nice, so we'd like to keep them open. Now, you're still on Terry.

- Terry Jones

36:34 - 36:35

Yeah, I'm here.

- Norma

36:37 - 36:40

We usually leave them open until after the Christmas parade.

- Terry Jones

36:42 - 36:42

Typically. Typically, we do that.

- Norma

36:49 - 36:57

No, but there's still quite a few people downtown. I lock them on Sunday and Monday night, and I'm surprised the number of people that is still down there.

- Tery Jones

36:57 - 37:00

There was quite a few people.

- Norma

37:00 - 37:05

I don't know, the guys open them up in the morning, don't they?

- Terry Jones

37:06 - 37:09

They, they open them, That's what I was getting ready to say. We had an issue with the Ladies Room door knob, it broke. We had to steal one from the Mary Street dock that has a button. When they're opening the door at the ladies' room, they're hitting it up against the wall. It's locking the door. So when they go out, they can't get back in because they blocked them. They locked. The door. Another we have a locksmith. He he's in the process of giving us another door handle. It's just those are special keys and it's not easy to just go out and buy a doorknob. So we've come up with a way to make that door, and I hit that hopefully, happen because I got called twice over the weekend, too. So yeah, I apologize. I know it's one of those things.

- Joe Chistman

38:01 - 38:05

About, you know, make sure the bathrooms are going to be open for that market that you want. Going on down there.

- Terry Jones

38:22 - 38:22

Pardon, Norma.

- Norma

38:23 - 38:28

They were able to see it easier to lock it last night, over the weekend. I don't know if you did something different.

The Ladies' room.

- Norma

38:32 - 38:34

I locked somebody in there one night. In his wife was standing out there, and she said my husband's a minute. To do. It's your choice, I can leave them there, I can unlock the door. Now has worked out fine. So, what else we got? Anybody? If not, can I have a motion to adjourn?

- Michelle

39:00 - 39:02

I'd make that motion.

- Norma

39:02 - 39:03

I bet you would. Ok, can I have a second. Thank you, Steve. Have a good night, Everybody.
